Cost Effective Dual Safety Pen Needles 4mm/31G

Safety – Dual Protection
- Shield locks automatically at injection end after use to prevent accidental needlestick injuries
- Shield also locks automatically at insulin pen end after use
- Visible injection site so any leakage of insulin can be seen

Convenience
- Visible needle tip for ease of operation during priming and injection
- Little pressure required so reducing pain and bruising

Universal Fit
- Compatible with all major brands of insulin pens

Meets EU Sharps Directive 2010/32/EU and Health and Safety (Sharp Instruments in Healthcare) Regulations 2013
